

REMARKS

This response is submitted to be supplemental to Applicant's response filed on July 3, 2007, which response is believed to be fully responsive to the Official Action dated April 4, 2007. Regarding the non-statutory obviousness-type double patenting rejection and provisional rejection, executed Terminal Disclaimers are enclosed in compliance with 37 C.F.R. 1.32(c) to overcome the rejection and provisional rejection. Thus, the non-statutory obviousness-type double patenting rejection and provisional rejection of original claims 1-34 have been overcome.

Respectfully Submitted,

By:
